

# TRIP TO YORK

I wanted to visit Great Britain, because it is a magic place. And I want to be better in English.

Before I started journey I must find suitcase and winter clothes. We must have some food for long trip to England.

On the boat there were shops, bars and a cinema. It was very a big boat. We slept there and it was not bad. In the evening we came to England.

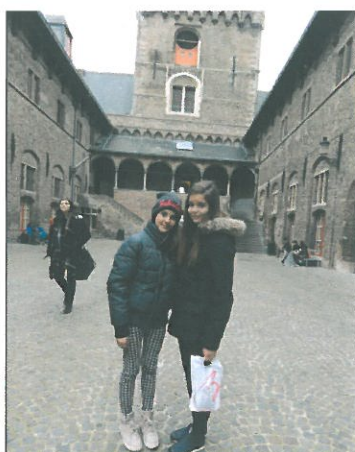

We started with visitation of the big city of York. And in the evening we waited for our new family. It was a young pair with a child and a dog. Their names are: Lee- dad, Jo- mum and Amy- daughter.

At school we learnt English with English teachers. They were super, but one old woman did not want to talk to me.

We saw lots of sightseeing and we were at London Eye, Trafalgar Square, Piccadilly Circus and others.... But the most important was Primark, where we had time to do the shopping.

On the way home we slept and watched films. It was boring.

I want back to England. I love it there
